

**TECHSPRAY®**

**Technical Data Sheet**

**Envi-Ro-Tech 1679 Defluxer**

1679

Flux removers (defluxers) remove flux residues and other contaminants left by manufacture, rework, or repair of printed circuit boards. Residues from higher, leadfree temperatures are more baked on and harder to clean. G3, Ecoline and PrecisionV flux removers have been proven very effective at removing fluxes baked on at leadfree temperatures.

Microcomponents and fine pitch leads are delicate and easily damaged, so brushing and scrubbing should be avoided if possible. Both G3, Ecoline and PrecisionV have a powerful spray and strong solvent that blasts off residues and cleans areas under components that a brush cannot touch.

**Alcohol-based flux remover & maintenance cleaner**

Alcohol-based general duty defluxer and all-purpose cleaner for light oils, silicones, waxes, greases and other contaminants found in electronics manufacturing.

- Non-aerosol
- Safe on plastics
- Non-ozone depleting

**Product Packaging**

1679-PT  
Envi-Ro-Tech 1679 Defluxer  
1 pt  
12 units/case

**Chemical & Physical Properties**

Appearance	Clear, colorless liquid
Odor	Alcohol odor
Flash Point	11.7°C (53°F)
VOC (EPA)	750-800 g/l
VOC (CARB)	
Boiling Point	80°C (176°F)
Density	

**Chemical Composition**

CHEMICAL NAME	CAS #
2-Propanol	67-63-0
Ethanol	64-17-5

---

Methanol 67-56-1

---

## Environmental Policy

Techspray is committed to developing products to ensure a safer and cleaner environment. We will continue to meet and sustain the regulations of all federal, state and local government agencies.

## Resources

Techspray products are supported by a global sales, technical and customer services resources.

For additional technical information on this product or other Techspray products in the United States, call the technical sales department at 800-858-4043, email [tsales@techspray.com](mailto:tsales@techspray.com) or visit our web site at: [www.techspray.com](http://www.techspray.com).
